### A Guide for Picking Strawberries

**Pick fully red, ripe berries.** Strawberries of most varieties reach their peak flavor when they are a deep red all over.

**Leave the caps on.** Your berries will stay fresh longer. Remove caps only when ready to use the berries.

**Handle gently.** Try not to overfill or jostle containers.

**Wash up.** Wash your hands - and your children's hands - before picking. Wash your berries, just before you eat or prepare them.

**Be kind to the plants and fair to the farmer.** Avoid stepping on plants or rows or trying to jump over the rows. Please don't pick the flowers - they are baby strawberries! Pay for your berries before you eat them.

**Keep berries cool.** Don't leave your berries in a hot car. Refrigerate them as soon as possible.

Enjoy delicious, nutritious, fresh-picked strawberries in many ways!
